District Lodge 19 National Agreement Survey

This survey has been created due to the recent rejection of the National Agreement proposal. We are now reaching out to all of our members individually in an effort to gauge everyone's position in relation to a new agreement. It is important for us to recognize the environment we are now working in. A high percentage (70% has been reported in news outlets) of unionized railroaders have agreed to the identical proposal we rejected. This forces us to look in other places for leverage needed to make a possible change to the recent offer. This survey is vital in helping us reach a new tentative agreement worthy of your vote.

We want to know your priorities for the ongoing negotiations. While we will try to make improvements in every area, it is important to know which ones are most important to you.

How important is it to make significant improvements in each area listed below?
